

MAINTENANCE & CLEANING GUIDE

General Guidance

Regular maintenance prolongs the lifespan of flooring. Factors such as color, design, and installation location affect maintenance and cleaning requirements.

- Most dirt comes from outdoors. Therefore, installing well-suited doormats at the entranceways will prevent 80% of the potential dirt and moisture from penetrating the premises.
- To remain effective, doormats should be vacuumed daily.
- Legs on furniture with angular or dirtying edges, or those that must support heavy weights (such as large cabinets or tables), should be placed on smooth protective pads to avoid damaging the flooring.
- Choose colors carefully based on where the flooring will be used. Never use acetone or polish on the flooring. For daily cleaning, we recommend vacuuming.

Floor Maintenance Instructions

Vacuum your flooring regularly to minimize dust accumulation.

Manual cleaning should be done in smaller areas or where machines cannot reach. Periodic cleaning should be performed regularly by following these steps:

- Start by vacuuming.
- Use a scrubbing brush, lukewarm water, and an all-purpose cleaner with a pH of 7-8.5.

Remove excess water with a wet vacuum cleaner or dry with a Microcare cleaning mop.

Stains Removal

Stains or spills should be cleaned up as quickly as possible while they are still fresh, and then rinsed with clear water.

Never use acetone, trichloroethylene, wax, greasy detergent, or nail polish remover. Instead, use a scrubbing brush and rinse with water.

STAINS	HOW TO REMOVE
Traces of acrylic / glue / paint	C essence or white spirit. After applying the solvent, carefully wipe the flooring
Drop of paint / Chewing gum	Use a freeze spray and then delicately remove the paint / gum with a spatula
Wine, beer, non alcoholic beverages, fruit, cream	Hot water and a neutral cleaning agent. Use a few drops of ammonia if necessary
Chocolate, oil, coffee/tea, grease, tar	Hot water and a powerful alkaline detergent
Shoe / scuff marks	For tough stains, apply a solvent such as C essence or white spirit
Ink, ball-point pen, marker, lipstick	Rinse thoroughly
Rust	Rub with a dry rag
Blood	Methylated spirits
Cigarette burns	A neutral cleaning agent and 10% oxalic acid Cold water and ammonia Scrap with a spatula and then apply a few drops
